The success of any educational institution depends upon the fact how it caters to the need of the masses and fulfill the aspirations of the society. So our college admits students solely on the basis of their academic qualifications irrespective of their caste, colour and creed. The creation of a multi-cultural co-educational academic community is both a means and an end in the mission of the institution.

In the present session, we have 3800 students enrolled in our college. We are running Graduate and Post-graduate courses like B.A., B.Sc. (Med. & Non-
